PASADENA NEWS.

ANNUAL MEETING OF THE W.C.T.U.

At the Baptist Church—A Kindly Notice—The School Soup—The Cross Road—Local Intelligence Gathered Here and There—Personal Gossip.

PASADENA, Sept. 4.—[Correspondence of THE TIMES.] Tomorrow, commencing at 2:30 o'clock in the afternoon, the sixth anniversary of the Woman's Christian Temperance Union takes place at the Baptist Church. The session will be a very interesting one, and all mothers and young ladies in this city, as well as strangers visiting here, are invited to be present. The general topic to be discussed will be "Alcohol in Medicine," and two papers will be read on the subject.

An election of officers for the ensuing year also takes place, about one-half hour earlier than the exercises. The "Y" and the Band of Hope will assist in the programme.

The ladies of the W.C.T.U. have wielded a powerful influence in bringing the city up to its present prohibition standard, and have at all times taken an active interest in the destruction of the liquor traffic in all its branches. The attendance without doubt will be very large, and a great deal of good work accomplished.

A KINDLY NOTICE.
Speaking of W. S. Monroe, who was recently called by Messrs. Wright and Kernaghan, school trustees pro tem., to the superintendency of these schools, the New England Journal of Education has this to say:
"Will S. Monroe, who was superintendent of schools at Nantucket, Pa., when the year came in, is now superintendent of schools at Pasadena, Cal., one of the most promising, delightful and honorable positions on the Pacific Coast. Elected at Eureka, Nev., in January, he had a successful entrance upon his work, and was invited to do last year's work in California in the spring and early summer, where his success was such that he was urged to make that a specialty next year, when this offer of Pasadena came to him. No young man has shown greater genius for, and devotion to, educational work than he, and in his promotion we rejoice."

THE WORK GOES ON.
The work of grading is still being pushed rapidly forward on the Cross road. A Times reporter made another trip to South Pasadena this morning, where he saw a large force of men and carts engaged in filling in the road-bed to a level with the Santa Fe track. Men are hard at work on the cut, which it is estimated will be at least two weeks in finishing. Openings in the Raymond station a space 100x50 feet is being filled in, to make a place for the depot at this point. The work of grading is also being pushed up the alley, a start having been made on Monday. While there are a large force of men at work, the reporter was unable to find many laborers from this city. To the pencil-pusher nearly all were strangers. Judging from a look at the crowds who daily stand around near the various street corners, Pasadena is not either way to work or else they have been unable to get it. The grading this evening had reached Fair Oaks avenue, in South Pasadena.

IN THE SOUP.
The school muddle is still in the "soup" and seems likely to remain there until the schools open. Although the school trustees are the choice of the people and will be generally obeyed, still there is no reason or cause why some evil-minded persons should speak in any way reflecting upon the sincerity of Mr. Monroe's motives in coming here. He is not to blame, but was summoned here by two appointed trustees, who, together with the County Superintendent, took upon themselves the authority to appoint the gentleman without consulting even a wish of the populace. Prof. Pinckney and Monroe are both good men, but in this case the former has been tried by the people, and naturally would be its choice. It was said on the streets today that should Mr. Monroe take his seat, the County Superintendent will be placed on record and an injunction served restraining Mr. Monroe from exercising the duties of his office. Vox populi, vox dei.

LOCAL MENTION.
Miss Jennie May of Kansas street, who returned yesterday from Redondo Beach, brought with her a 20-pound fish which she had the good luck to catch.

Fanny Davenport will play La Tozza at the Grand Opera-house in about three weeks. Margaret Mather holds the boards on next Monday evening.

Storms & Sharp, editors of the Miner and Artisan, are now devoting their whole time to their publication.

The Valley Hunt Club will open the fall chase in about three weeks.

William Fennar and wife have gone to housekeeping on South Vernon avenue.

Andrew Wren of Mountain avenue died last evening at 6 o'clock, of consumption. Funeral on Thursday afternoon at 4 o'clock, in the chapel of Lippincott & Son. Deceased was insured in the sum of \$2000, and was a member of Manchester Unity Lodge of Odd Fellows of Lawrence, Mass.

E. H. Conner closes his writing-school in the City Hall tomorrow.

Judah & Seaman's art-studio fame will occupy the main store room of the Strong building as soon as completed.

H. S. Crocker & Co. of San Francisco have just issued the large lithographic maps of a bird's-eye view of Pasadena, with cuts of the leading business houses.

The seven school trustees are now in town, the majority having just returned from the beach.

The Stars and Stripes float proudly today over the San Pedro Lumber Company's office in honor of the return of the manager.

The interment of the late Andrew Wren will be in the Mountain View Cemetery.

Work on the sewers will shut down in a few days, as the city gets a right of way through Alhambra.

city last evening from an extended trip East.
George F. Foster is going to make a trip on Monday to Blaine, Wash.
John Fennar is at home from a few days' rest on Santa Catalina.
Prof. C. F. Holder, an elected School Trustee, and wife are over for a few days from Catalina.

A Phantom City.
[Ottawa Special to New York Sun.]
A dispatch from Victoria, B. C., says that Prof. Willoughby, who has visited the Alaskan coast for many years, a short time ago visited "Muir's Glacier," and took a shot at it with his camera. He was startled by a most remarkable result. It was the phantom of a great city, with rows of high warehouses, factories with tall chimneys, stately residences and elegant church spires. Various were the conjectures as to the locality from which the shadow was evolved. Victoria, Seattle, Portland and San Francisco were all suggested, but none met the requirements. At last a French Canadian recognized the Windsor Hotel, the dome of the new Catholic Cathedral near the hotel, and the "Muir's Glacier" with Mount Royal in the distance. The mysterious city was the phantom of Montreal, nearly 4,000 miles away. The professor has had a large number of his pictures struck off, and it is the wonder of the day.

Mrs. Harrison at Nantucket.
[St. Louis Republic.]
Nantucket is smiling at a little adventure of Mrs. Harrison at that place. There is a little store at Nantucket where they sell odd baskets of odd shapes, and it is the custom with visitors to buy them as souvenirs of the place. Mrs. Harrison wandered in there alone the other day, and, looking over the baskets, asked the funny old woman who attends the store and who is of herself a character worth seeing: "What is the price of this basket?" holding one up.

"Marked on the bottom," was the terse reply.

Mrs. Harrison repeated the question and the woman, with a most annoyed expression, glanced up from her paper and said: "It's marked on the bottom; I can't be bothered to stop and answer questions. I am reading about the President's trip to Bar Harbor."

BEECHAM'S PILLS act like magic on a weak stomach.

Pleasant Weather.
Our city thermometers at noon today showed the temperature to be 50° in the shade. At the same time at the "Hotel del Coronado" it was 70° only. Take advantage of next Saturday's excursion and cool off.

The Steamer Ancon Strikes a Rock.

The Vessel a Total Wreck—Passengers and Crew Saved.

The Scene of the Disaster at Neah Bay, Wash.

A Daring Oregon Highwayman—He Holds Up Two Stages in One Day and Makes His Escape.

By Telegram to The Times.

PORTLAND (Or.), Sept. 4.—[By the Associated Press.] The steamer George W. Elder, that arrived at Port Townsend this morning from Loring, brought the passengers and crew of the steamer Ancon, which was lost on the morning of August 28th in a gale. The passengers and baggage were saved. The vessel was broken in the middle, and is a total loss.

The steamer Ancon, in getting away from Loring, in Neah Bay, ran into the rocks at 3 a.m. Wednesday, August 28th, striking nearly amidships. Only a few of the passengers and crew of the accident until nearly 4 o'clock, when the boats were lowered and launched, with orders given to the ladies ashore first.

Good order prevailed at the time among the passengers and crew, and in less than an hour all were taken ashore without loss of life or any accident.

The steamer broke in twain near the walking beam, thus being a complete wreck. The passengers were quartered in a cannery and in Indian huts, and were cared for by the ship's company as well as possible until Sunday, September 1st, when the steamer Elder arrived and took all back to Port Townsend.

The Ancon had 13,000 cases and 500 barrels of salmon aboard.

The following Californians were passengers on the Ancon, a majority of whom left for home today: Marcellus Ross, Mrs. Martha A. Ross, San José; Minnie L. Spilling, Oakland; Henry Fuller and wife, Mrs. Della Fuller, Santa Monica; Mrs. Lillian L. Cullen, Los Angeles; Mrs. Cora A. Chase, San Diego; L. M. Kelly, Santa Rosa; M. Bugbee, San Francisco.

SAN FRANCISCO, Sept. 4.—It is stated that the Pacific Coast Steamship Company is arranging to send a steamer to wreck of the Ancon, with a view of saving what cargo and property is practicable. The Ancon was valued at \$100,000, but there was not a cent of insurance on her.

A DARING ROAD-AGENT.

A Lone Highwayman Holds Up Two Stages.

LINKVILLE (Or.), Sept. 4.—[By the Associated Press.] Last night about 12 o'clock the north-bound stage on the Ayer and Linkville line was robbed by a lone highwayman. After robbing the express box of \$100, and the single passenger of \$50, the robber climbed on the hind boot of the stage, and ordered the driver to go ahead. Soon the rattle of the south-bound stage could be heard. The robber commanded a halt, ordering the driver to stay where he was, and slipped away in the bushes.

The driver listened and heard the command, "Halt!" The wheels stopped. Then he heard the blows of axes on the express box. The south-bound stage was presumably robbed in the same manner as the north-bound, but it is not known how much money was taken, as the drivers were not allowed to speak to each other, and only one has reached home so far.

The robber is described as being a short, middle-aged man, about 35 years of age, with dark hair, and a beard.

The House Turf.

SANTA ANITA, Sept. 4.—The first race at the Oakland track today was a three-quarter mile dash, Leland Stanford pure, for 3-year-olds—Flambeau won, Rico second, Robert Earl third. Time, 1:16.

Five dash, Heart pure of \$300, for 3-year-olds—Won by Longshot, Faustine second, Duke Spencer third. Time, 1:43.

PLACERVILLE, Sept. 4.—The races drew a large crowd to the park today.

First race, five-eighths of a mile and repeat—Painkiller won in straight heats. Time, 1:08 1/2.

Three-eighths of a mile and repeat—Hawthorne won. Time, 35 1/2.

Half mile heats—Stoneman won, but the race was declared off, the judges holding that the driver of Stale 3, made no effort to win when he could have done so.

Seven-eighths of a mile, J. D. Caltrates—Warwick won, Vinco second, Jim Duffy third. Time, 1:16.

Running, seven-eighths of a mile—Hullo won, Mikado second, Daisy D. third. Time, 1:22.

Wanted to Bleed to Death.

SANTA ANITA, Sept. 4.—Mrs. Pickell, proprietress of the Century Hotel, attempted suicide today by cutting her arm with a rusty razor. She was found unconscious in her bed chamber in a pool of blood. After she had recovered she stated that she was tired of life and had intended to bleed to death.

Unable to Agree.

SANTA ANITA, Sept. 4.—The jury in the case of Benjamin Davis, charged with killing his wife, were discharged this morning, having been locked up since Monday evening. They were unable to agree. The last ballot stood 3 for conviction, 4 for acquittal.

Guilty of Manslaughter.

SANTA ANITA, Sept. 4.—Alexander Anselmo was today found guilty of manslaughter for killing Bernardino Camello at the Hotel de Italia several months ago.

Fresno's Wheat Crop.

FRESNO, Sept. 4.—It is estimated that the wheat crop of Fresno county for 1889 will amount to 4,000,000 sacks.

Chicago Fruit Sales.

CHICAGO, Sept. 4.—Porter Bros. & Co. sold three carloads of California fruit today, as follows: Double crates, Muscat grapes, \$2.55 @ 4.40; Tokay, \$2.70 @ 4.50; single crates, black Morocco, \$2 @ 2.15; Bartlett pears, \$3.45; nectarines, \$1.55; peaches, \$1.75 @ 1.90; double crates, purple Muscat grapes, \$2.75; half crates, Corneillon grapes, \$1.60; ditto Rose Peru, \$1.60; ditto Muscat, \$1.60. The fruit should have arrived yesterday.

New Peril to Railroad Travel.

PITTSBURGH, Sept. 4.—The limited train from the East was delayed last night through one of the most unexpected accidents since the vestibule train has been started. Between Philadelphia and Harrisburg the roofs of two forward coaches caught fire through friction, which were off the casing and got the steel plates red hot. The fire was easily extinguished, but the fact of the fire has set the railroad people to thinking.

Floods in Mexico.

CITY OF MEXICO (via Galveston), Sept. 4.—Heavy floods prevail. Several lives have been lost. The water is still rising. The food at Tampico is increasing. People are still leaving their homes. Many of them are destitute and hungry. An appeal for help has been issued.

The railroad from Manzanilla to Colima was completed yesterday and will be in use September 16th.

Will Writing Become a Lost Art?

[Boston Traveller.] Will the coming man write? Not at all. There will be no more need of his learning to write than of his learning to spin. Writing will have become one of the lost arts, and a wholly unnecessary art, by the time the

coming man appears. His writing will be done by the photograph, which will be placed on his desk as pens and ink are now; and whenever he has a story, a poem, an essay or a private letter to indite, he will simply talk into the photograph, and send on the plate which has recorded his words. The teaching of penmanship will be unknown in the school of the future, and writing, in the present fashion, will be regarded as much among barbaric methods as we now hold the rude hieroglyphics of the ancients to be.

Colors of the Roman Gods.

The gods of the Romans each had a color by which he might be designated. They were as follows: Saturn, black or very dark blue; Jupiter, is seen gray or bright scarlet; Apollo is represented as of a deep gold color; Mars is always red, but with more of a brownish tinge than Jupiter's color; Venus's color is reddish, and Mercury is represented as a light blue.

It Sounds Very Heartless.

"What do you think of a man who will bury two children in the morning and go to a ball game in the afternoon?" asked a well-known joker of a party of friends in an up-town resort. "If a brute," was the answer. "Then all want to know who he was."

FIELD'S DEFENDER.

MORE TESTIMONY FOR DAVID NEAGLE.

Marshal Franks Explains His Orders to the Deputy—What the Terrys Said to News-paper Men.

By Telegram to The Times.

SAN FRANCISCO, Sept. 4.—[By the Associated Press.] Among the witnesses examined in the Neagle case today was T. T. Williams, a journalist, who testified that he had an interview with Judge Terry while the latter was in Alameda county jail, and that Terry threatened to slap Justice Field's face, and intimated that he would be pleased to have Field attempt to use a weapon on him.

Marshal Franks testified that upon the arrival of Justice Field in San Francisco on June 17th last, he, Franks, appointed David Neagle and two other deputies to protect Field from assault. He gave general instructions to these men to look out for Field. When the latter left for Los Angeles about August 7th, he instructed Neagle to accompany him, watch the Terrys and prevent them from doing Field violence. He called Neagle's attention to the fact that Terry was not an ordinary man, and if he met Field it would probably be difficult to control him. He told Neagle that in his opinion Terry would assault Field, and if he did, Neagle would have to act quickly. Witness said that although Terry might intend only to insult Field when he saw him, he (Franks) did not believe that Terry could control his temper, but would probably immediately draw his knife. He wanted Neagle to take no chances, but protect Field at all hazards.

M. E. Edes stated that he had known Terry for over thirty years, and that the fact that he carried weapons was known to all his acquaintances.

P. D. Wiggins testified that he visited Judge Terry in jail, and Terry said he would kill Judge Sawyer if it became necessary.

J. P. Osgrove, a newspaper reporter, stated that he called upon Judge Terry at Fresno, after the latter's release from jail, and asked for an expression of his intentions regarding Justice Field. Terry declined to be interviewed, and said he had no intentions regarding him. As witness was leaving, Terry came to him and said it was unfortunate that the country no longer recognized the code, for if it did Justice Field would have a chance to try his skill at shooting.

A letter from Atty.-Gen. Miller to Marshal Franks, directing the latter to provide proper protection for Justice Field and Judge Sawyer also, was submitted in evidence. The case was continued until tomorrow.

MEN AND WOMEN.

Low Wallace writes his first draft upon a slate and finishes upon large sheets of white unruled paper in a most faultless chirography.

Miss Braddon is stated to have penned some of her most thrilling passages on torn envelopes or any other bit of paper that came to hand.

N. P. Willis is now residing at Pomfret, Ct., and her daughter, Mrs. Dr. Eddy, who is now a widow, is a teacher at Harvard College.

Gen. Robert C. Schenck, who made a reputation as a soldier, diplomatist and poker artist, will be 90 years old before he lives to October 4th.

Jefferson Davis, Roger Q. Mills, Addison Cammack and the late Judge Terry were all born in Todd county, Ky., within a space of five miles.

Mrs. Harriet Webb, the private dramatic reader, and a woman of marked personal beauty, is living at her country seat, "Lyndhurst," Rye, N. Y. Mrs. Webb is recovering from a severe illness.

The Hon. Whitelaw Reid, the American Minister to France, has rented a cottage at Dieppe, where his family is domiciled. He goes to Paris two or three times a week as occasion demands.

Wadai N'jumi, the leader of the Arab invaders, who was killed at Toski, was one of the Mahdi's bravest lieutenants. It was he who destroyed Hicks Pasha and his army. He also led the Dervishes who captured Khartoum and killed Gen. Gordon.

Lewis Miller, the father-in-law of Edison, the inventor, is next to Bishop Vincent, the leading man in developing the Chautauqua idea. Mr. Miller is a well-built, solid-looking gentleman, with a gray beard and jovial face. He is an Ohioan.

Gen. Albert Pike, the head of all the Masonic orders and rites in this country, is in his 80th year. He was born in Boston, and he was graduated at Harvard, went West in 1831, served in the Mexican war, and was a Confederate brigadier in command of the Cherokee Indians. He is an old newspaper man, but has been practicing law in Washington for many years.

John I. Blair, the New Jersey railroad king, who recently testified in a legal proceeding that he was worth from \$40,000,000 to \$60,000,000, says that he laid the foundation of his fortune by trapping when a boy. It was in 1809, while living on the homestead farm near Blairstown, that the spirit of money-getting took possession of him, and he began trapping for rabbits. The local market being dull, he walked to Easton, Pa., 20 miles away, and after dickering with the various merchants, sold a lot of skins for \$1. This was the first money he ever owned, and Mr. Blair declares that he then felt richer than he ever has since, despite his wealth.

The Weather.

SIGNAL OFFICE, LOS ANGELES, Sept. 4.—At 5:07 a.m. the barometer registered 29.83; at 5:07 p.m., 29.78; thermometer corresponding periods, 83°, 76°; maximum temperature, 87°; minimum, 62°; weather, cloudy.

AT SAN DIEGO.

THE ARID LANDS COMMITTEE DOWN SOUTH.

Visiting the Sweetwater Dam—A Shameful Waste of Water—Taking Testimony—Senator Stewart on Riparian Rights—On to Arizona.

SAN DIEGO, Sept. 3.—[Special Correspondence of THE TIMES.] The Senate Committee on Arid Lands closed its labors in California at San Diego today. At 8 o'clock the party, escorted by a number of leading citizens, visited the Sweetwater dam, the first of the great systems of the future that is easily accessible by railroad. The heavy discharge that has been flowing for the last ten days, in obedience to the decree of the United States Court, has had little effect, so far, upon its volume, and the great artificial lake looked about as large and as smiling as if no misfortune had overtaken it. Unbounded indignation and disgust were freely expressed by citizens at the stupidity and ignorance of the value of water and the necessities of their country which enabled a jury to perpetrate such an outrage as the verdict in the late riparian suit. It is amazing that with the energy, intelligence and enterprise that the people of this county display in other directions, the great majority of them are as ignorant as the Hottentots of the value of water. The great object lessons that may be seen any day within 100 miles they know nothing of. So far as any true knowledge of Southern California is concerned, the jury as well as the jury, taken up by settlers. It is so, at least in San Diego county. The leaning of Maj. Powell, who will control the work, is plainly toward

STEADFAST FRIENDS, and they have accumulated a mass of valuable evidence. Of course, the Government can do little or nothing upon any part of the country now settled, for about all the water and all the valleys fit for reservoir sites are already taken up by settlers. It is so, at least in San Diego county. The leaning of Maj. Powell, who will control the work, is plainly toward

TAKING THE COLORADO RIVER out above the Needles. The vast areas of rich alluvium and shell-marl known as the New River country, on the Colorado Desert, he thinks too low and deficient in drainage to carry off the alkali. It matters little where they begin if they only make a start somewhere. Everything thus done will make it more difficult for private enterprise to finish the rest.

ON AGAIN.

At 4:30 o'clock the party took the train and bade good-by to California, thoroughly satisfied that they had had a good time and seen the most progressive people on the continent. The only disappointment they have had has been in looking for a "busted boom," and one and all pronounce Southern California the liveliest corpse on earth.

BAY AND BROWN.

Evil Effects of Coffee.

[Terre Haute Express.]

Mr. Briggs: I wonder what women will do next? I see in the paper that the women in the East are ruining their health nowadays by eating tea.

Mrs. Briggs: Do you suppose it is any worse than eating coffee? Every man who comes home munching coffee, and it seems to make your nose redder and redder, to say nothing of the looks of your eyes.

its main dependence will be upon winter storms, and a excess of rainfall, the right to reservoir which exists even in England.

A WINNING TRIP.

Much regret was expressed here, as it was at Los Angeles, that the committee could stay but such a short time. We may console ourselves with the fact that a longer stay would not have strengthened the convictions of the committee. Senator Stewart and Maj. Powell are the main ones, and no one can enlighten them any upon the advantages of irrigation. They might have learned more about systems and the economy of water, but they are as firm believers in the results as any one could be. The rest of the committee seemed of the same mind. We can count upon them all as

STEADFAST FRIENDS, and they have accumulated a mass of valuable evidence. Of course, the Government can do little or nothing upon any part of the country now settled, for about all the water and all the valleys fit for reservoir sites are already taken up by settlers.
